

Otsuka Techno launches desk shield to prevent droplet infection

Otsuka Techno Corporation (Head Office: Naruto, Tokushima, Japan; President and Representative Director: Kanji Tsukii; “Otsuka Techno”), a subsidiary of Otsuka Pharmaceutical Factory, Inc. (Head Office: Naruto, Tokushima, Japan; President and Representative Director: Shinichi Ogasawara), has launched a desk shield as a droplet infection protection material in April.

This product is a desk shield to prevent the spread of droplets, etc. in situations where contact with people is increased, such as workplaces and schools. Taking advantage of the film manufacturing technology that Otsuka Techno has cultivated as a manufacturer of molded plastics for medical use, the sheets are made of polyethylene, which can be wiped off with alcohol, etc. The seat is replaceable and combined with a lightweight, high-strength aluminum frame, making it easy to carry and use in a variety of situations. Three sizes are available: 95cm, 130cm, and 180cm wide, assuming office desks, desks with sleeve desks, and conference tables. Since it is assembled, it can be stored compactly.

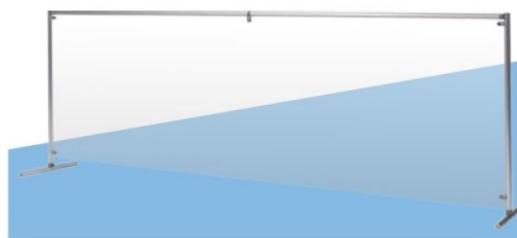

With the spread of the new coronavirus infection (COVID-19), droplet control is becoming more and more important, and the demand for infection protection materials is increasing. In the workplace and elsewhere, there is a problem of inadequate spacing, so we wish to contribute to solving the problem through the provision of this product using our own high film manufacturing technology.

Otsuka Techno is developing medical products and precision products as its core businesses, utilizing its advanced molding technologies for medical plastic container components. We will continue to contribute to society through manufacturing.

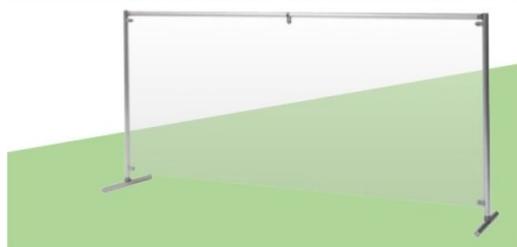

Based on the corporate philosophy of “Otsuka-people creating new products for better health worldwide,” the Otsuka Group is dedicated to contributing to the health of people around the world.

Product Information

Desk shield

Suggested retail price	Frame	¥7,000 per unit (Tax included, shipping not included)
Size	Sheet	¥1,300 per sheet (Tax included, shipping not included)
Sheet thickness		(Tax included, shipping not included)
Weight		W1800 × D306 × H639 (mm)

Suggested retail price	Frame	¥6,000 per unit (Tax included, shipping not included)
Size	Sheet	¥1,100 per sheet (Tax included, shipping not included)
Sheet thickness		(Tax included, shipping not included)
Weight		W1300 × D306 × H639 (mm)

Suggested retail price	Frame	¥5,000 per unit (Tax included, shipping not included)
Size	Sheet	¥1,000 per sheet (Tax included, shipping not included)
Sheet thickness		(Tax included, shipping not included)
Weight		W950 × D306 × H639 (mm)

※Includes one sample sheet.

- ①Frame
- Aluminum frame makes it light
 - Built-up type makes it compact

- ②Sheet connector
- Easy detachment of the sheet from the frame
 - Can be installed by simply making a hole in any sheet

- ③Sheet
- The polyethylene sheet can be wiped with alcohol
 - Clean because it is replaceable
 - Translucent so it does not block light

Company Profile

Otsuka Pharmaceutical Factory, Inc.
