**Otsuka Techno establishes a new company in Vietnam to  
manufacture and market package materials for medical use**

Otsuka Techno Corporation (Head Office: Naruto, Tokushima, Japan; President and Representative Director: Kanji Tsukii; “Otsuka Techno”) established Otsuka Techno Vietnam Co., Ltd. (Head Office: Dong Nai Province, Vietnam; General Manager: Hironori Fujita) in Vietnam for the purpose of supplying package materials for medical use\* on June 7, as a step for overseas expansion and started construction of a new factory.

The Otsuka Group started overseas expansion of medicine-related businesses in the 1970s. Currently, 15 group companies are engaged in the infusion business, mainly in Asia, contributing to each country’s medical treatment. The main purpose of overseas expansion of Otsuka Techno is to supply package materials for medical use in the infusion business. Otsuka Techno established Leshan Otsuka Techno Co., Ltd. in Leshan City, Sichuan Province, China, in 2005, followed by Nanjing Otsuka Techbond Techno Co., Ltd. in Nanjing City, Jiangsu Province, China, in 2011. These companies manufacture and market such materials in China and also export them to nearby countries.

The new factory constructed in Vietnam will start operations in October 2021 as a factory which mainly manufactures package materials for medical use, based on the competitive manufacturing system. Using the technology cultivated so far, Otsuka Techno will contribute to the further development of medical field through supplying not only package materials for medical use which are estimated to increase demand in the future, but also medical plastic devices and medical devices in the rapidly growing Asian region.

Based on the corporate philosophy of “Otsuka-people creating new products for better health worldwide,” the Otsuka Group is dedicated to contributing to the health of people around the world.

\* Package materials for medical use are plastic films, caps, and ports mainly used for containers of infusion products.
