

**Otsuka Techno Corporation completes a new factory
“Naruto No. 3 Factory” for film products, with high quality
and production capacity**

Otsuka Techno Corporation (Head Office: Naruto, Tokushima, Japan; President and Representative Director: Kanji Tsukii; “Otsuka Techno”) has completed a new factory “Naruto No. 3 Factory,” in the site of Head Office which will manufacture film products. The completion ceremony will be held on October 29, 2019.

Naruto No. 3 Factory is a new factory which focuses on manufacturing functional bag films mainly for medical use. Under the clean environment and the thorough quality management, it will stably supply high quality products that respond to a wide range of needs. With introduction of new equipment and an efficient production system, the production capacity will rise about 30% compared with that of the current factory

Otsuka Techno has expanded to the field of molding processing for precision products, using the high technology for molding plastic materials for IV solution containers. Currently, “plastic products for pharmaceutical/healthcare products” and “precision plastic products” are the two major business fields of the company. With the construction of our new factory, we will strengthen the technology foundation we have cultivated to date, develop and manufacture innovative high value-added products. Also, we will contribute to the local community by creating new employment.

Based on the corporate philosophy of “Otsuka-people creating new products for better health worldwide,” the Otsuka Group is dedicated to contributing to the health of people around the world.
